REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The applicant has limited his claim to recite that the process consists essentially of the recited steps to include the feeding of the sodium carbonate decahydrate crystals directly to a sodium bicarbonate plant, which is unobviously distinct from the similar step taught in col. 9 ln. 67 to col. 10 ln. 10 in U. S. Pat. 6,428,759 B1 which adds water to the sodium decahydrate crystals and feeds the resulting solution to a sodium bicarbonate production facility. The "consisting essentially of" and "feeding. . . directly" language of the applicant's claim materially excludes this addition of water to the crystals taught in col. 10 lns. 1-3 in U. S. Pat. 6,428,759 B1, and there is no motivation to alter the process of U. S. Pat. 6,428,759 B1 by deleting this necessary step of water addition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

DRAWINGS

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 1 will be labeled "Prior Art". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
